MME Radio is Now Online! We're initially testing with up to 20 listeners at 64kbps, via Spacialnet, and we're looking for more Maine Artists with original tunes to put on the "air". The system is currently automated, playing from some gear at my home studio, and you can hear the Shoutcast/Winamp MP3 stream at these links:

PLS playlist file:
[Play MME Radio](#)

Raw MP3 for Winamp-style playlist entries:
<http://sc1.spacialnet.com:29436>

We'll be watching the stats closely to see if/when we need to boost accessibility, and let us know what you think by posting here at the MME site via the MME Radio forum. As time permits, we'll be adding many more features and capabilities, so keep checking in.

Our current library consists of the artists who sent in CDs to the former Homegrown in Maine radio show on WJZF-FM - Standish, along with the artists on our MME site's Artists Jukebox. Remember, we can only play your originals that you give us permission to play - covers would require us to pay royalties and in order to stay non-profit and free, we don't have the cash for that! At least not yet!

We're always looking for new music, so send your original music to us at:

MME's Homegrown in Maine
276 Hopkins Rd
Plymouth ME 04969

Or contact us to find out how to email/upload your stuff. And don't forget, we want more than just your music - we want to know more about you and the band and the recording process, etc. Watch for artist interview appointments coming soon!

Always looking for volunteers to help organize, write, research all this stuff, too. Just holler if you're interested in making podcasts and doing interviews, reviews, etc.!
